The terminology of the sciences is derived almost wholly from Latin and Greek.—W. J. HOLLAND

<sup>1</sup>Do not mistake for derivatives of *dent* those words in which the suffix *-ent* is added to a root ending in *d*, as in *accident*, *confident*.

†In both Exercises and Review Lessons this symbol indicates words having an unusual range of meanings.

#From here on in Exercises and Review Lessons this symbol marks words whose meanings seem remote from that of their roots. In such words reason out interrelationships as suggested in Ftn. 4, page 80.
